Description: The 52KB series is a one hand quick connect coupling made of steel with a good flow rate. The 52KB coupling can be used with a shut-off plug as well as with astraight through plug. Mainly the 52KB serioes is used for air tools, measuring and control equipment, breathing air, machinery and plant engineering.												
Interchangeability: WALTHER LP-006												
Versions / special equipment (in part not for all versions, others upon request): seal material Buna N, Viton, Kalrez, Ethylen-Propylen; surface nickel plated, chrome plated, durnicoat; oil and grease free, silicon free;
