## **Customer information about test reports and inspection certificates LPCE, Nussdorf**

We offer the following certificates according to DIN EN 10204.

### **Test report 2.2 without raw material certification**

**Part number:** WERKSZEUGNIS

**Description:** WERKSZEUGNIS 2.2 DE/ENG

**Tests:** Leakage and function test

**Optional:** Material description in BOM, indication of FDA or BAM certifications for specific single parts

#### **Comments:**

This test report 2.2 is our standard certification. It contains order data out of our ERP system. Additionally are all test (leakage and function test) according to the work plan mentioned in the certificate. Optional we can add BOM with material descriptions without raw material certificates. In BOM we can specify if seals, plastic components, adhesives or lubrications have FDA or BAM certifications. Please request separately optional information.

### **Inspection certificate 3.1 with raw material certification for stainless steel parts**

**Part number:** WERKSZEUGNIS\_02

**Description:** WERKSZEUGNIS 3.1 DE/ENG

**Tests:** Leakage and function test

**Material certification:** Raw material certification of single parts in BOM

**Optional:** Indication of FDA or BAM certifications for specific single parts

#### **Comments:**

This inspection certificate serves as documentation of customer specific tests and criteria. An inspection certificate 3.1 is necessary when the customer needs a raw material certificate of single parts. Batch related raw material certificates for each single part in BOM (bulk material excluded) are attachments to the inspection certificate. We only state inspection certificates 3.1 for stainless steel products.

Please contact if necessary your sales company contact.
