### Accessories

# **Pressure Relief Valve**

Pressure Relief Valve

### **Technical Description**

Produced for hydraulic systems where in line quick connect couplings are used. The system pressure built up between the hydraulic unit and the coupling would not allow mechanical coupling.

#### Advantages

The Pressure Relief Valve can be mounted directly in the main inflow line so that all downstream pipe or hose lines where quick connect couplings or plugs are installed at the ends can be depressurised.

# Working Pressure max. 250 bar

#### **Working Temperature**

up to max. +90°C depending on the medium. Special seals are available on request (see page 6).

| Material              | Standard                               |
|-----------------------|--|
| T-Connection          | Steel, zinc plated, passivated, sealed |
| Pressure Relief Valve | Brass                                  |
| Seal                  | NBR                                    |
